

The 4 Hidden Causes of Erection Problems

& How to End YOUR Erection Problem Now!

By Jacqui Olliver
Personal Development Expert
& Relations Strategist

Hi, I'm Jacqui Olliver – I'm a Personal Development Expert and Relations Strategist. I teach men how to easily END sexual problems and weak erection problems including **premature ejaculation, sexual frustration AND erectile dysfunction, so they can relax and enjoy more sex.**

In this report I'm going to share with you the previously unidentified **underlying** causes of erection problems and how to end these problems so you can remove performance anxiety and immediately begin to improve your ability to relate intimately.

"I wanted to let you know that last week for the first time ever, I had no problem with PE at all. I just kept going and going. The thought occurred to me that this is what it's like to be a porn star! My girlfriend actually got tired and needed a couple of breaks."

John (42) - Texas, USA (Skype session)

A lifetime of Premature Ejaculation **gone within three weeks** of practicing my unique 'switching' technique.

So what causes weak erections?

The hidden causes of erection problems include:

- **Suppression** of sexual arousal
- **Your partner's unwillingness to have sex** with you
- **An inability to stay focused** on the sexual act
- **Lacking the knowledge** to actually attain a strong erection.

Now let's look at these in more detail:

Reasons for suppressing sexual arousal include:

- Stress, anxiety, workload
- Personal inactivity
- Lack of exercise
- No desire
- An **inability to redirect sexual arousal**

Suppression of sexual arousal **leads to weakness** in your PC muscle. The PC muscle controls the up/down movement of your penis and controls ejaculation. This means that **every** time you suppress your sexual arousal you are causing your penis to become weaker!

Is your partner unwilling to have sex with you?

She may be:

- Feeling **emotionally** unfulfilled by you
- Feeling **disconnected** from you
- Feeling **unfulfilled** by your technique
- Feeling **pressured** to have sex
- Feeling unfulfilled by the amount of **performance time** you give her

In many cases **this** is the main reason for relationship breakup because it creates doubt!

Doubt for you – of your ability to perform...
Doubt for her – of your ability to fulfil her

Then there is the inability to stay focused on the sexual act

The more worried you are about performing and how to get a hard on – and keep it hard during sex the worse your erection problem (and relationship problems) become.

Due to this continuous mental pressure, you completely **lose your ability to focus on attaining (and maintaining) an erect penis** during the sexual act **AND** lose your ability to feel emotionally connected to your partner during and after sex.

Without the right focus, your brain and body are unable to unite during sex to achieve the desired result - which is to have a hard erection, keep a hard erection (with full control) **AND** stay emotionally connected to your partner at the same time.

In this report I have identified the 4 hidden causes of weak erection problems. To be able to get a hard on (and keep an erection) you need to address **ALL** of these causes. Otherwise you may only partially heal your erection problem – and you could be doomed to having weak erections – and struggling to keep a hard on, for the rest of your life.

MANY of my clients have suffered from these problems for **YEARS** and **NEVER** been able to resolve them **UNTIL they learned my technique.**

If you want to achieve a **superior** sex life, I can supply the answers.

I teach a new technique which fully explains the reasons you are underperforming. Within two hours, you will totally understand the mechanics required to **TOTALLY RESOLVE** your **SEXUAL PROBLEMS!**

This method is unique to me and is unavailable elsewhere.

Imagine how great it would be to be rid of this horrible problem forever?

My unique switching technique enables you to end **ALL** erection problems, so you can eliminate sexual frustration and performance anxiety and gain the confidence you need to succeed in your most important relationship – that of you and your partner.

One 1.5 hour session is enough to eliminate your erection problem. Another one hour session will ensure you have the intimacy communication skills required to keep your woman fulfilled for life.

I guarantee your privacy and I will never judge you. Sessions are available online via Skype, or in person at my private clinic in Auckland, New Zealand.

Click here to download my "[Hidden Causes of Erection Problems Checklist](#)" – problem solving begins with identifying problem areas.

Eliminate the 4 underlying causes of your erection problem now!
Book your session now - before it's too late for your relationship.

"I feel like a new man – a 30 year old one! How wonderful to have such control, 15 to 30 minute love making and not totally bugged at the end. I am so grateful to you, for how you have helped me. What wonderful changes to my love life – I am having trouble finding words to explain myself."

Ben – 72, New Zealand (1.5 hour session)

Premature Ejaculation and Erectile Dysfunction gone after one week.

Ben says that he hopes his feedback will encourage other men to get past their nervousness and embarrassment to book their session - so they too can end their erection and relationship problems.

Contact me now to discuss your session. I look forward to helping you end your sexual and relationship problems and to gain the confidence in intimacy which you deserve.
